

## **Faith in Practice**

*Including people with learning disabilities in faith communities*

This film aims to help faith communities to:

- understand the importance of faith to some people with learning disabilities
- think about ways to include people with learning disabilities in their worship and activities
- appreciate the ways in which people with learning disabilities contribute.

Some questions to discuss, after watching the film:

- how are the people in the film supported and included in their faith community?
- how do people in the film contribute to their faith community?
- how do you include people with learning disabilities in your faith community?
- have you talked to people with learning disabilities about what they value and what they need in your faith community?
- what else could you do to help people with learning disabilities to be included in your faith community?

Faith in Practice was commissioned and funded by the Foundation for People with Learning Disabilities as part of its spirituality programme.

Price: £12.50
