

## Emergency Services via Text Message

A service has been devised to find the nearest doctor, dentist, pharmacy, optician, walk in centre or A&E wherever you may be located at the time.

All you have to do is text the name of the service you require followed by the postcode and send it to: 61121.

A text message will come bouncing back to you with details of the closest service to that postcode.

**Text: 61121**
